

Product Requirements Document (PRD)

Portfolio Website - Kumar Dhawale

Overview

This project aims to build a storytelling-based portfolio website with parallax scrolling to showcase Kumar Dhawale's experience as a Software Engineer specializing in Java, Spring Boot, and full-stack development.

Profile Summary

Experienced Software Engineer with expertise in Java, Spring Boot, REST APIs, database optimization, and secure application development using JWT and JWE.

Core Features

- Parallax storytelling homepage
- Sections: About, Experience, Projects, Skills, Contact
- Animated project showcase (NPPA, SLCMS projects)
- Resume download button
- Contact form

Tech Stack

Frontend: Next.js, Tailwind CSS, GSAP

Backend: Optional (Email service for contact form)

Hosting: Vercel (recommended)

Hosting Plan

1. Buy domain (Namecheap)
2. Push code to GitHub
3. Connect GitHub to Vercel
4. Deploy automatically

Anti-Gravity IDE Workflow

- Use AI to generate components and animations
- Maintain modular structure
- Optimize performance continuously

Resume Download Button (Code)

```
<a href="/resume.pdf" download class="btn">Download Resume</a>
```
